

Seaside Virtual Multicultural Assemblies: Showcasing our Ocean of Diversity

Be a part of our Multicultural (MC) Assemblies, seen online as a part of Seaside's Friday assemblies!

Students in grades K-5th can share their culture and talent from the comfort and safety of home, yet the entire Seaside family will be able to view and experience performances virtually, courtesy of parents/guardians' video recording.

Students could sing, dance, play an instrument, tell a folktale, share a recipe, make a toy, demonstrate arts and crafts, describe an event, discuss history, teach language phrases, read a story, or try something else – the possibilities are endless!

You need to audition by submitting a video of your two-to-five minute performance; please wear heritage clothing, and please say something in the country's language.

You will then be contacted as to whether you need to re-submit or if you can be scheduled. Video performers need to be Seaside students only.

ASAP please send a video AND a still photograph taken during the performance to (or for any MC questions contact) Pat Bressi, Multicultural Chair, at bovinia@hotmail.com. You will also need a media release (for the entire year or for this one event only). Please get videos in asap to reserve your spot. Spots are now open for the entire year. You may submit via a link to google drive or contact Pat regarding other means. THANK YOU!
